CHILD HEALTH **ADVANTAGE**  
A Physician Purchase Program

## Advantage Purchasing

Rising supply costs, such as vaccines, create a financial challenge for many community physicians. Now individual physicians and physician practices can secure lower prices for high-cost vaccines through a purchasing program.

**Child Health Advantage** offers competitive vaccine pricing as well as rebates based on purchases. This program, formerly eVaccines, leverages the negotiating power of the largest vaccine purchasing network to contract price savings on your behalf.

The Child Health Advantage program puts the purchasing power in your hands. Interested physicians and clinics can register at [ChildHealthAdvantage.com](http://ChildHealthAdvantage.com) or contact one of the 25 hospital networks listed on this website.

Program membership means lower cost vaccines, improving the financial impact to your practice. Member physicians saved more than **\$17.5 million** on vaccine purchases in 2008. Enroll now at no cost to experience the advantages of membership.

PHYSICIANS SAVED OVER

ON GSK VACCINES

## Advantage Partnership

**Child Health Advantage** currently has 25 hospital networks that actively sponsor physician practices. These networks function to support local and regional physicians with reimbursement, continuing education, and other valuable services.

Physicians and physician practices can participate through one of the networks listed on [ChildHealthAdvantage.com](http://ChildHealthAdvantage.com). Physician offices unable to be sponsored by a network can access discounted vaccine pricing through the independent physician network.

Physicians and physician offices can purchase their vaccines directly from GSK or through one of four authorized distributors.

## Advantage Membership

- **Guaranteed contract pricing on select GlaxoSmithKline (GSK) vaccines**
- **Quarterly rebates directly from GSK**
- **Easy ordering from Child Health Advantage authorized distributors and GSK Direct**
- **Contract pricing reflected directly on each physician invoice**
